

Application No.: 10/523,436
Filing Date: August 15, 2005

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0078] as indicated below:

[0078] Balls 15 kicked or otherwise ejected by players 30 from the range carousel 13 may hit one of the target structures 16 at the field periphery 12 or fall short onto the sloping surface 14 or 19 of the field 11. In either case a used ball 15 will roll into a ball collection ~~through~~ trough 17 or peripheral opening 21 and subsequently into its associated underground shaft 18 or onto subsurface 20 to thence roll downwardly to the central support column 22 of the range carousel 13.
